

Vancouver School Board: Our Future

Project Description

Our Future was designed to be an ongoing web presence where community members can find a wide range of information about Vancouver schools. The website is the graphical access to a centralized data warehouse of information about Vancouver Schools.

PlaceSpeak Contribution

PlaceSpeak provided an online forum including a survey and dialogue about international enrollment and cross-boundary applications. PlaceSpeak also served the City of Vancouver's Parks and Recreation division by soliciting feedback on the use of public facilities close to schools and in neighbourhoods.

Project Outcome

The directions obtained from this input were used to create a framework for consultation that will continue to occur both in public meetings and online through PlaceSpeak.

Innovations

Integration with the VSB website, including instructions, widgets and social media icons, enabling multiple connection methods and increased participation levels.

Information

Geographic Scope

- City of Vancouver
- Internal area divisions

Engagement Methodologies

- Online survey
- Discussion forum

Timeframe

- November 2011- February 2012

Key Analytics

- 4,748 unique page views
- 419 connected participants
- 308 completed surveys
- 38 comments
- 115 comment views
