

# Developing Our Community—East St. Paul Fahr Group

## Project Description

Fahr Group believes that the community engagement process is crucial to the development of a new subdivision. Our new neighbourhoods will reflect a shared vision for East St. Paul.

They wanted to engage current residents through open forums to better understand their needs and wants for this growing community and share more about our plans.

## PlaceSpeak Contribution

Using PlaceSpeak welcomes community input that will help with NIMBY residents and will allow for community engagement 24 hours a day rather than the traditional open house format.

## Project Outcome

Developers are often criticized with not providing clear—or enough—information during the development process and PlaceSpeak gives the Fahr Group the tool to provide clear credible information.

## Information

### Geographic Scope

- East St. Paul, Manitoba, a community near Winnipeg
- Topic was open to area residents only

### Engagement Methodologies

- Discussion Forum

### Timeframe

- August 2012 - present
