

Pattullo Bridge Review Consultation

Project Description

From June 3 -28, 2013, New Westminster, Surrey and TransLink consulted with local residents and businesses, local and regional stakeholders, and bridge users about the future of the Pattullo Bridge.

PlaceSpeak Contribution

PlaceSpeak hosted an online survey seeking input on the alternatives for rehabilitating or replacing the bridge.

Project Outcome

The Pattullo Bridge Review Partners – City of New Westminister, City of Surrey and TransLink – will be considering the feedback received through PlaceSpeak and other sources, along with financial and technical information, in the ongoing review of alternatives.
